

To Whom It May Concern:

It is with enthusiasm and honor to write this letter on behalf of Chris Bianchi, who has been a great mentor for me and even a greater asset for my AAU Basketball Organization. I have had the privilege of getting to know Chris for the past several years and he has helped me to grow, become a better Coach for my team and a better leader for my organization in which parents trust and allow me to work with their most precious gifts. Their children!

Chris has been an outstanding mentor and he has helped me improve my communication style, time management, and coaching skills both on and off the court. As a mentor Chris has observed me as a coach with great detail and has provided me with constructive criticism on ways that I could improve and become a better Coach. His constructive criticism has made me more effective as well as become more efficient. Chris's style of teaching, utilizes different methods, such as charts, and graphs to better the coach. His different approach has helped me tremendously because I am a visual learner. He has attended several of my basketball practices so that he could learn about me as a person and a coach.

As a mentor, Chris has provided me with the NCAA rules and regulations for my young athletes transitioning from high school to college. He has also provided me with all the information as far as any test such as SAT/ACT that my student athletes must take and pass while also providing me with information on tutoring services for them.

What I personally appreciate the most is how Chris came to speak with my student athletes as well as parents on his own time expressing the importance of character and sportsmanship. He also spoke on the importance of social media personal profiles and the impact that it could have on them as they are being recruited to the next level.

I am highly confident in Chris and I know that through his mentorship with Coaches he could help change the lives of many of our student athletes in the years to come. He is a great Coach, Mentor, and most importantly a friend who I am proud to say I know.

If you have any questions, please feel free to contact me at 585-775-1411.

Best Regards,
